CLEAN ENERGY EXPO

## 2nd Clean Energy Technologies Expo

Exhibition Date : 09-11 May 2024

Visiting Hours : 10:00 - 18:00

Exhibition Venue :  fuarizmir

Organizers

:  IZFAS  EFOR  BIFAS

## TURKEY'S MOST POWERFUL CLEAN ENERGY TECHNOLOGIES FAIR

**WENERGY**-2nd Clean Energy Technologies Fair will be opening its doors to industry professionals at Exhibition' İzmir on May 09-11, 2024 with the participation of hundreds of prestigious domestic and foreign companies and the visit of thousands of professional investors & buyers.

**WENERGY**- Clean Energy Technologies Fair , which will host the clean energy sector, brings together public , investors, industrialists and suppliers. The exhibition will include all sub-titles of renewable energy, especially wind, solar, hydrogen, biomass and geothermal, and the following: Cogeneration, generation, distribution and transmission systems, maintenance, repair and service in energy facilities, environmental technologies, energy efficiency, energy logistics, digitalization, latest technologies in energy storage, electric vehicle and charging technologies, smart grid and smart infrastructure, cyber security in energy, the latest products and services will be showcased at the exhibition, including the above. **WENERGY**, the most influential and largest Clean Energy exhibition in Turkey and the region, will bring together more than 300 industry stakeholders with international buyers and investors..

# SPECIAL SECTION

## W-E MOBILITY

Electric vehicles, charging technologies, and equipment come together in the special section of W-E MOBILITY at WENERGY Expo, bringing together public and private sector investors.

Hardware and software manufacturers, service providers, solution partners, and all services related to electric vehicle charging will present new business opportunities in the field of e-mobility.

### Products and Services to be Showcased at the Expo

- Electric Vehicle Charging Hardware & Software
- Smart & Fast Charging Solutions
- Electric Vehicle Charging Network Operators
- Solar Energy Generation, Energy Storage & Battery Management Systems for Charging Stations
- Charging Point/Station Design, Construction, and Operation Services
- Connectors, Sensors, Components, Modules, Cabinets, Charging Guns, Cables, Parts, and other products
- Payment Systems, Testing, Measurement, Control, Industrial Design, and other services

# WENERGY 2023

## In Numbers

WENERGY Clean Energy Technology Fair, designed with the goal of being Turkey's and the region's most influential and largest Clean Energy Fair, was organized in collaboration and co-organization by İzfaş, Efor, and Bifaş Fairs.

Professional investors and buyers from America, Europe, the Middle East, and Gulf countries found the opportunity to expand their trade and investment volume in the clean energy market through WENERGY, where the most innovative products and technologies were showcased.

## EXHIBITOR PROFILE

- Solar Energy Panels and Technologies
- Hydro Turbine Importers and Manufacturers
- Wind Turbine Importers and Manufacturers
- Steam Turbine Importers and Manufacturers
- Energy Storage Companies
- Biogas Technology Companies
- Hydrogen Technology Companies
- Public and Non-Governmental Organizations
- Energy Storage Devices
- Battery Cell Manufacturing Information
- Communication and Technology
- Software for Storage Systems
- Testing, Audit, and Security Systems
- Integration / Automation Technologies
- Electric Vehicle Charging Devices

Special buyer and investor  
delegation from 14 target  
countries

professional visitors from  
60 countries  
including Turkey

Cooperation with more than  
50 chambers of commerce and  
associations worldwide

Connect with  
New Business Partners

Improve Your Brand Awareness

## WHY YOU SHOULD PARTICIPATE?

- Special buyer and investor delegation from 14 target countries
- More than 30 thousand professional visitors from 60 countries including Turkey
- Professional investors and buyers from America, Europe, Middle East and Gulf countries
- Cooperation with over 70 international visitor agencies
- Seminars & conferences with industry leaders and experts
- Cooperation with more than 50 chambers of commerce and associations worldwide
- Cooperation with more than 20 international associations and federations
- Display Your New Products And Technologies
- Evaluate New Business Opportunities
- Connect with New Business Partners
- Maintain the Loyalty of Your Customers
- Meet with Energy Investors
- Meet with Key Decision Makers in the Industry
- Improve Your Brand Awareness
- Conduct Market and Industry Research

# VISITOR PROFILE

- Energy industry professionals
- Electricity Consumers Who Want to Produce Their Electricity from Clean Energy Sources
- Business Owners and Investors Who Want to Install Solar and Wind Farms
- Institutional Energy Investors turbine companies
- Product Supply Companies
- Measurement and engineering companies
- Distribution Companies
- Construction and Architecture Companies
- Public institutions, Municipalities universities
- Press and media
- Associations and federations

# WHY YOU SHOULD VISIT THE EXHIBITON?

- Rich and innovative product groups
- Participation of more than 300 prestigious companies
- Conference with international experts and academics
- State-of-the-art products in the energy sector
- Private B2B meetings with the most prestigious and leading manufacturers
- You can discover new effective solutions for costs in existing processes.
- Have the Opportunity to Closely Examine Innovations and Technologies in Energy
- Connect with New Suppliers and Business Partners
- Evaluate New Business Opportunities
